

## RESEARCH RESULTS -

1. **3800 On line Surveys conducted by Calmbirth® Pty Ltd**
2. **Results of the Pilot Study conducted at the Royal Hospital for Women, Randwick**

1. Below you will find **results of 3800 On Line Surveys sent in by Calmbirth couples** after the birth of their baby between January 2008 and June 2013. Some results show a comparison of Calmbirth® couples with the NSW Mothers & Babies 2010 report which are statistics of the general birthing population supplied by both public and private hospitals in NSW. The RHW Pilot Study was compiled by Dr Jane Svensson, Ante Natal Co-ordinator at the Royal Hospital for Women, Randwick. NSW Australia.

**Table 1: Did you use any analgesia during labour?**

(Calmbirth participants n=3800, compared to NSW Mothers & Babies NSW 2010))

**Table 2 . Which one word would best describe your thoughts about birth *before* and *after* you did the Calmbirth® course? Calmbirth participants n=3800**

**Table 3 - How was your baby birthed?**  
(Calmbirth participants n=3800)

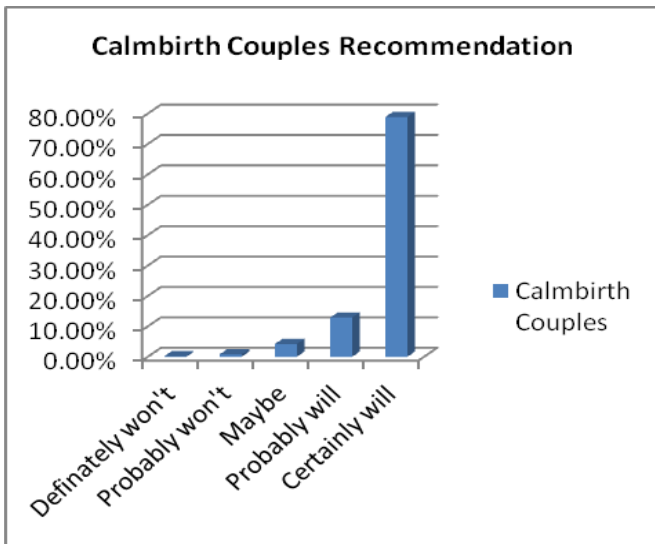

**Table 4 - Partner's thoughts about birth before & after Calmbirth program ( n=3800)**

**Table 4 - Do You Plan to Recommend Calmbirth ( n=3800)**

**Table 5 - What was your overall satisfaction of the Calmbirth Course (n=3800)**

0 – unsatisfactory and 10 – very satisfactory

## 2. Results of the Pilot Study conducted at the Royal Hospital for Women, Randwick
